Details of the activity

Name of the activity: International yoga day celebrations

Date: 21-06-2023

Venue: College seminar hall

Number of students participated: 45

Program description:

International yoga day was celebrated worldwide on 21 June. We Jayamukhi college of pharmacy has also celebrated the day with yoga guru Ramakrishna chary garu the famous yoga trainer from chennaraopet village. He said that the art of practicing yoga helps in controlling an individual's mind, body and soul. It brings together physical and mental disciplines to achieve a peaceful body and mind; it helps manage stress and anxiety and keeps you relaxing. It also helps in increasing flexibility, muscle strength and body tone. He has made the students to participate in the yoga session with different asanas. Students felt very pleasant while meditation and practicing the yoga.

Program details

On the occasion of world heart day NSS unit in collaboration with IQAC has organized a medical camp at moqdumpuram village. Students has checked BP, pulse rate of the patients attended the camp. They gave suggestions to the patients to prevent heart strokes which are quite often these days due to life style modifications. We have also conducted a CPR program at chennaraopet Primary Health care center.

Program details

The Ministry of Women and Child Development is celebrating the 6th Rashtriya Poshan Maah throughout September 2023. This year, the objective is to comprehensively tackle malnutrition through a life-cycle approach, the cornerstone of Mission Poshan 2.0. Anchored in this approach, the focal point of Poshan Maah 2023 is to cultivate widespread awareness concerning critical human life stages: pregnancy, infancy, childhood, and adolescence. The aim is to foster nutritional understanding across India through a theme centered on "*Suposhit Bharat, Sakshar Bharat, Sashakt Bharat*" (Nutrition-rich India, Educated India, Empowered India).

Jayamukhi college of pharmacy has celebrated this poshan maah in college campus. Students has brought many different varieties of cereals and exhibited in the college. they have explained about the importance of nutritional requirements in the growth of humans.

Details of the activity

Name of the activity: Blood donation program

Date: 10-11-2023

Venue: college seminar hall

Number of students participated: 25

Details of the activity

Jayamukhi college of Pharmacy NSS unit in association with Indian Red Cross society has organized a blood donation camp in the college seminar hall. Students and volunteers have actively participated in the camp and donated the blood.

Volunteers helped the doctors in checking the blood pressure and pulse rate. Most of the girl students lack hemoglobin and were rejected to donate the blood. Teaching and non teaching staff members also made their contribution in blood donation. While speaking with the volunteers the president of Red Cross society explained to them blood can't be created artificially it could be transmitted from one person to other person. Those who donate blood once in 6 months will produce new blood cells and their immunity can be boosted. Totally 200 units of blood were collected by the end of the day.

Program details

Diabetes is a chronic disease that occurs when the body doesn't produce enough insulin or can't use insulin properly. This results in high blood sugar levels, also known as hyperglycemia. Over time, diabetes can cause serious damage to the heart, blood vessels, eyes, kidneys, and nerves.

Symptoms of diabetes include:

increased hunger, increased thirst, weight loss, frequent urination, blurry vision, extreme fatigue, and sores that don't heal.

People with diabetes can live long, healthy lives with proper self-management and education. Some ways to help prevent type 2 diabetes include: Eating healthy foods, Getting more physical activity, and Losing excess pounds. Our students has conducted the blood glucose test to students staff members and bus drivers in the college and explained the precautions to be taken to prevent the diabetics. They has explained the life style modifications which effects the patients.

Program details

Model school consists of many girls children of adolescent age. So our unit felt to organise a menstrual hygiene awareness program in the school. Menstrual cycle is very common to all the girl children belonging to adolescent age. If they don't maintain proper hygiene during that time it leads to severe health issue. Our Pharm D VI year student's Akshitha and Mahathi has explained to the students about the proper hygienic conditions to be maintained and proper way of the disposal of the sanitary pads. College staff members G.Swetha has interacted with students and answered to Students many doubts

Details of the activity

Name of the activity: Cardiopulmonary resuscitation

Date: 12/01/2024

Venue: College campus

Number of students participated: 45

Cardiopulmonary resuscitation (CPR) is an emergency procedure consisting of chest compressions often combined with artificial ventilation in an effort to manually preserve intact brain function until further measures are taken to restore spontaneous blood circulation and breathing in a person who is in cardiac arrest. It is recommended in those who are unresponsive with no breathing or abnormal breathing, for example, agonal respirations.

CPR involves chest compressions for adults between 5 cm (2.0 in) and 6 cm (2.4 in) deep and at a rate of at least 100 to 120 per minute. The rescuer may also provide artificial ventilation by either exhaling air into the subject's mouth or nose (mouth-to-mouth resuscitation) or using a device that pushes air into the subject's lungs (mechanical ventilation).

On the occasion of Swamy Vivekananda birthday our students has conducted a CPR program in the college campus to educate about the CPR and its method to perform to many students nad staff members.

Details of the activity

Name of the activity: Micromedex software

Date: 21-12-2023

Venue: College computer lab

Number of students participated: 30

Program description:

Micromedex is a suite of databases offering comprehensive drug, disease and toxicology information for health care professionals and patients. DRUGDEX, POISINDEX and TRISSELS IV Compatibility are all databases within Micromedex that Victorian Public Hospital employees have access to.

DRUGDEX is the database within Micromedex that contains drug information - it is evidence-based, fully-referenced, and covers FDA-approved and investigational prescription and nonprescription drugs, as well as non-U.S. preparations. Information is organized into sections and may include: dosage, pharmacokinetics, cautions, interactions, clinical applications, adverse effects, comparative efficacy, drug of choice information, and orphan drug status. we have explained the students how to use this data base.
